External links "Welcome to flipalbum.com" Category:Software companies of Vietnam Category:Vietnamese companies established in 2004He has tucked it behind his waistline, in a little pouch sewn into the front of his pants. He keeps it there so no one sees it. "He told me he had a little camera there," Harris said, chuckling. "But then, we talked about how in our job, we're in the public eye, and if he were to start taking pictures of me in my uniform, it might be hard to explain." Among the many types of medical conditions which give rise to detectable excess levels of urine for the patient is metabolic acidosis. Such acidosis is associated with a variety of medical conditions including renal insufficiency, diabetes, rheumatoid arthritis, and medication side-effects. Monitoring this excess urine is very important to the patient in order to prevent further complications. Because the acid-base equilibrium of the patient's body is of concern to the patient, he has the desire to have frequent frequent analysis of his urine to monitor the progression of the acid-base equilibrium. Frequent urine analysis is, however, cumbersome for the patient. The prior art has recognized the desirability of frequent urine analysis, and has provided urine collection bags which keep a patient's urine within a sterile field until a result is completed. A variety of devices have been developed f678ea9f9e
